Maybe even better than free.

Unfortunately, we can't make that part free. No account or credit card is required to get started. Files transferred the old-fashioned way tend to pile up and be forgotten about, eventually costing you money in data storage fees. Your wallet will be none-the-lighter! Just so we're all 100% clear here: When you share a file, data is being transferred between your computer or phone and our servers, then from our servers to your friends device. You can upload any type of file (movies, music, documents, images, zip files and more). If only we could, we surely would! On the other hand, using file can actually save you money. Using file, you can circumvent those limits without paying to upgrade your team chat service. You decide who you want to share your files with. You can give this download link to your friends by mail or instant messenger. File is free to use with no gotchas and no hidden fees. So try our free and simple filehosting service now. You don't need any special software installed to be able to download your files. This is easy, fast and reliable filehosting! You don't need any kind of premium-accounts. Our service is completely free for everyone. Alternatively you can choose to share your download links on blogs, forums and social networking sites. There are no restrictions on the number of times a file can be downloaded. When you use file, you avoid storing the file you're sending inyour cloud storage or mail server. We have no file size limit. Files can be downloaded from any computer from our high speed servers. filehosting provides aneasy possibility for you to send large files to your friends. Any file in any format can be uploaded and downloaded for free. Just upload the file you want toshare with your friends and we send you a download link to your file. It is also allowed to link to the download page from websites and communities. The costof that data transfer is covered by your internet service or the data plan on your phone. Keep your files private, or send your download links only to friends orfamily. Why pay storage fees for a file that you just wanted to send to a friend or colleague? Also, many team chat apps have limits to the size of files that canbe transferred within their apps. Simply upload your file and share the link.
